

Marion Natural Gas has an immediate job opening for a full-time Gas Service Tech. Starting pay for this job is \$15.00/HR or based on experience.

Hours: Monday -Friday 7:30 am -4:30 pm (must respond to emergency calls)

Marion Natural Gas is proud to serve our Customers and Community with safe, reliable, and affordable Utility services. MNG is focused on providing a safe, healthy working environment for our employees and providing the tools they need to succeed. We provide a multitude of training and development opportunities and offer our employees the opportunity to obtain OQ certifications to develop skills and enhance their value. To ensure we offer competitive wages and benefits, we benchmark our policies against many industry, area, state, and national reports.

We are currently hiring for a Maintenance Technician in our Natural Gas Department. The natural gas maintenance technicians are responsible for constructing and maintaining the gas distribution system including the installation and repair of gas mains, service pipelines, valves, and related system components. Must be in compliance with all state, local, and federal requirements. A valid driver's license is required. A CDL is preferred, but not required at the time of hire.

This is for a full-time position with excellent benefits including health insurance, dental, vision, company-paid life insurance, company funded retirement plan, vacation time, sick time, and 14 paid holidays. In addition to competitive pay and comprehensive benefits, we also offer advanced, objective reviews that factor directly into compensation. Apply online or in our office at 138 Cedar Ave South Pittsburg, TN 37380.

Education and/or Experience

High School diploma or GED; 1 year of verifiable and acceptable work experience; Must pass a post-offer, pre-employment physical examination, drug test and background check as well as be covered under Research and Special Programs Administration (RSPA) regulations which require pre-employment and random drug screenings and breath alcohol testing; Must complete Operator Qualifications Certifications for gas workers within 1 year of assuming the position and maintain certifications afterwards; Prior knowledge and experience of natural gas systems preferred.
